P. Sargant Florence : Labour before purchasing it in order to gauge whether or not it would be worth my time, and all praised Labour:

Labour focuses on the issues and problems concerning the efficient full employment of labour in a free market economy. The discussion is largely about the conditions (including comparative wages) underlying industrial efficiency and maximum production from various labour resources at least cost. By estimating man-power, analysing the human factor and measuring labour efficiency, the book summarizes recent evidence on employment conditions

for or against efficiency and the effect upon the incidence of unemployment.
