Lena J. Tsipouri : Latecomers in the Global Economy (Industrial Economic Strategies for Europe) before purchasing it in order to gage whether or not it would be worth my time, and all praised Latecomers in the Global Economy (Industrial Economic Strategies for Europe):

Drawing on the example of late-developing countries, especially from East Asia, catching up with established powers, the authors address a new formulation of industrial policy for latecoming, semi-industrialized countries. With contributions from some of the best-known economists currently working in this area, the book will be a valuable

guide for economists and international policy-makers interested in development issues.
