**Aidan Coles : Life in the Fast Lane** before purchasing it in order to gage whether or not it would be worth my time, and all praised Life in the Fast Lane:

0 of 0 people found the following review helpful. Unsung heroes: those tow truck drivers we never think about until we need themBy Kate ValeNever knew reading about tow truck drivers would be so much fun, or so instructive. I've only had to call one once, and I recall how stressed I was. Would he find me, especially after I mixed up the street

names nearest my stopping point? Would he be nice? Would he be nasty? Would he overcharge me? Good news: he found me, was nice, not nasty, and the fee was what I had been told by the dispatcher. Yeah! This book reminds the reader to BE NICE to these guys. Who else is going to get out of bed in the dark of night and plow through snow or rain or piles of mud to rescue perfect strangers? 1 of 1 people found the following review helpful. Who you going to call? By Jeanette Hubbard A fast primer on how NOT to behave around tow truck operators. This is an inside look at one of the most underappreciated jobs in the world. And an important reminder that tow truck operators are emergency workers. When you're broken down on the side of the freeway who do you call? 0 of 0 people found the following review helpful. I'm glad I read this book By Pearl R. Meaker I never realized being a tow truck driver could be so dangerous and interesting. I'm glad I read this book.

There is a dark underbelly to every city, and one group of professionals spend most of their time lurking within. Unloved, unappreciated and mostly unseen: tow truck drivers. Join accomplished magazine columnist and 20-year towing veteran Aidan Coles as he blows the hood off the true story of what being a towman is. Ever wondered why tow trucks seem to block the middle of a busy street in rush hour for no apparent reason? Or how tow truck drivers seem to always know exactly where the illegally-parked cars are? Or even what happens to those cars once they've been hauled away? This book reveals all, from high-speed impacts to high-jinks on scooters. Take it from the author himself: "I've been the low boy all the way to general manager and have done every job in the industry including toilets. Yes, I've impounded a portable toilet." Hilarious, poignant and revealing, *Life in the Fast Lane* will ensure you never look at a tow truck the same way again.
