Enjoyed reading how she dealt with the challenges of her everyday trading. It helped me to examine my own trading and what I can do to improve. I would not recommend

this book for those who have never traded before. Some concepts she discusses only make sense when you have actually experienced trading on a new account. Active traders may enjoy her ideas on what she has overcome with some of her challenges that I think many traders face. Only thing I would have liked to see is more visual elements complementing her discussions of her trading decisions and setups. 0 of 0 people found the following review helpful. Contracts for difference or 'CFDs' have taken Australian traders by storm. Catherine Davey's first book on the subject, *Contracts for Difference: Master the Trading Revolution*, was a great success; in this follow-up, she shares her real-life CFD trading experiences over a three-month period in 2005. During this time, she manages to turn \$13000 into \$30000, but her path to success is anything but straight and simple. *Making Money from CFD Trading* describes not only the reasoning behind and execution of her trading strategies, but also presents an honest, inspiring and often humorous discussion of her emotional journey as a trader. Catherine gives a fascinating insight into the trading experience: struggling to maintain the right psychology, avoiding irrational 'ego trades' and finding emotional balance between depressing losses and big wins. She presents a range of opinions from industry experts and commentators, discussing day-to-day trading issues and sharing controversial market views. This book will give you an understanding of: simple charting techniques that make money the unique aspects of trading CFDs how to exploit the advantages CFD trading has over traditional share trading strategies for establishing and maintaining a winning mental approach. This entertaining and hugely informative book is a must-read for anyone who wants to know more about CFDs and for traders of any financial instrument who want to take their performance to the next level.
