**Elaine Harris, Clive R. Emmanuel, Samuel Komakech : Managerial Judgement and Strategic Investment Decisions** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Managerial Judgement and Strategic Investment Decisions:

This book presents the findings from a cross-sectional survey funded by CIMA. The project aimed to survey senior management accountants working across a range of organisations and industries with a unique focus on the behavioural side of decision making, the use of managerial judgement. Previous capital budgeting surveys have tended to focus on the quantitative evaluation tools and techniques used for project appraisal. This study was broader in that it asked about every stage of the strategic investment decision (SID) process, from initiation to post implementation review, and how different managers were involved at different stages of the process. The focus is on how decision judgements are reached. bull; Explains Strategic Investment Decisions (SIDs) clearly to management nbsp; accountants

who are expected to be involved in decision making processes; Covers all stages of the SID process, the types of SID and how multiple managers participate in the process; Will help organisations benchmark their own SID practice

About the Author Professor Elaine P Harris is Professor and Head of Department of Accounting and Finance and Head of Leicester Business School's Graduate Centre at De Montfort University. She is currently Chair of the Committee of Heads of Accounting (CHA), and a member of CIMA's Education Board. Her research interests are in project risk assessment and decision making. She is guest editor of the International Journal of Risk Assessment and Management and managing editor (special issues) of The Journal of Applied Accounting Research. Professor Clive R. Emmanuel is Professor of Accounting and Finance at the University of Glasgow. He is currently joint editor of the British Accounting. His research interests are in management control, transfer pricing, and capital budgeting. He has published extensively in UK and international journals. Samuel Komakech is Lecturer in Accounting and Finance at De Montfort University and worked as the research assistant on this CIMA-funded project, while studying for his PhD. He has worked in Uganda as a tax consultant for KPMG and teaches management accounting. His research interests are in activity based costing and capital budgeting.
