J. Kotlarsky, I. Oshri : Managing Component-Based Development in Global Teams before purchasing it in order to gauge whether or not it would be worth my time, and all praised Managing Component-Based Development in Global Teams:

It is imperative to equip practitioners with a workable framework to manage component-based development in distributed environments, and to offer a theoretical construct to academics wishing to advance the study of global

teams. This book outlines the key challenges faced by projects and offers tools to implement CBD in global teams.
