Ruth Murray-Webster, David Hillson : Managing Group Risk Attitude: 1 before purchasing it in order to gauge whether or not it would be worth my time, and all praised Managing Group Risk Attitude: 1:

This book builds on the authors' previous title Understanding and Managing Risk Attitude but this time looks exclusively at the challenges of understanding and managing those attitudes adopted by groups of people when faced

with making decisions that they perceive as risky and important. The book makes the link between risk management and decision-making explicit, building on existing work from the economic and risk psychology schools but taking a pragmatic, practitioner-focused approach that is relevant to all decision-making groups in any situation. The insights in *Managing Group Risk Attitude* are derived from the authors' own applied research. Details of the research methods and findings are included in the book in support of a practical model and steps to manage risk attitude using applied emotional literacy. Ruth Murray-Webster and David Hillson have written a practical book for all decision-makers, supported by actual research by practitioners and underpinned by the seminal research of leading academics.

'They have succeeded in this - and in making such a multi-faceted subject highly readable and genuinely interesting.' --
The RoSPA Occupational Safety Health Journal
About the Author
Ruth Murray-Webster MBA PMP MAPM MCQI MCIPD is an organizational change consultant, and Managing Partner of Lucidus Consulting Ltd.
