Mark Polino : Microsoft Dynamics GP 2010 Cookbook before purchasing it in order to gage whether or not it would be worth my time, and all praised Microsoft Dynamics GP 2010 Cookbook:

0 of 0 people found the following review helpful. Five StarsBy Debra MorrowWonderful in depth analysis and new way to do things0 of 0 people found the following review helpful. A MUST HAVE for every Dynamics GP UserBy LVThis is a fabulous book. You don't have to read chapter after chapter to find what you are looking for. Each chapter is packed with small digestible tips that will keep you coming back for more. Pick this up and transpose yourself to a Power User!Leslie0 of 0 people found the following review helpful. Somewhat helpful.By waddinskySome of the content of the book was useful but not as much as I hoped. I work in purchasing so only some of the material pertained.

As a cookbook, this book enables you to solve real-world Dynamics GP problems with immediately useable recipes that unleash the powerful functionality of Dynamics GP. The book provides tips, techniques, and solutions designed to show users how to improve their use of Dynamics If you are a Dynamics GP user or Dynamics GP partner primarily

focused on delivering time-proven application optimizations, then this book is for you. This book assumes that you have a basic understanding of business management systems, with basic knowledge of Microsoft Dynamics GP. All the recipes are real-world tested and designed to be used immediately.

About the Author Mark Polino Mark Polino is a Certified Public Accountant, a Microsoft Certified Business Management Professional, and a Microsoft MVP for Dynamics GP. He has been working with Dynamics GP as an administrator and consultant for more than ten years. Currently Mark is a Principal Consultant with Microsoft partner I.B.I.S., Inc. and he runs the premier user-focused Dynamics GP blog at DynamicAccounting.net.
