Zwilling I like this book because it goes way beyond the "typical" book on motivating teams, with an explicit set of instructions for what to do and expect on each day of a 30-day program to understand your own motivation, as well as raise the motivation of your team. If you are the kind of person who likes a checklist, and action items, you will love this book. If you are looking for some guidance on implementing your own process, you may not like the level of detail and expectations here. I recommend the book to every first time manager and entrepreneur with a new team of people working for them. The authors are clearly experts in this area, based on

numerous talks and sessions they have hosted with business leaders around the world. 0 of 0 people found the following review helpful.
