A must read for everybodyBy Spataru NicolaeLike Peter Drucker said in "Managing Oneself", you have to know how you get things done.And this book is amazing.The author basically says that you need this elements in order to succeed in your goals:-you have to be CLEAR on exactly what you want to achieve-constantly think about your OBSTACLES, how are you not going to achieve what you want-get specific on HOW you're going to achieve you goal-focus on IMPROVING YOURSELF, not necessarily comparing

yourself with other people-and she offers us an amazing tool that seems simple, but it's not: IF-THEN plansIF-THEN planning is an amazing tool for self-control.A must read!0 of 0 people found the following review helpful. Smaller than Expected, Probably for the BestBy Dagger9 things successful people do differently by Heidi Grant Halvorson was exactly what it sounds like, a book sharing nine habits that successful people do. And while the book itself was smaller than my left hand, it packs a punch leaving readers with a lasting impression. The premise behind the book is that people don't succeed strictly because of who they are; more often, people succeed because of what they do. And this book provides the to-do to make you a more effective person when it comes towards reaching your goals.This book is much more concise than the other 378 page self-development encyclopedias you can find on the market. Halvorson does a solid job of presenting each habit, clarifying it, providing examples of its application and usefulness, and finally leaving the reader with a "putting it into practice" checklist. The habits themselves are universal and it is clear that anyone who implements these into their daily lives would be better off. I only had one quarrel with the book. Some of the "putting it into practice" checklists are scant. Granted some of the habits are more situational, it would have been nice to have at least a few actionable items for each habit that could be started right now.Overall, I recommend giving Halvorson a shot. When I bought the book it was under \$7 and, given the quality of the book's content, there is no doubt this book will be a positive return on investment.1 of 1 people found the following review helpful. Like a devotionalBy Rich R. RainboltRead this in my doctor's office while waiting for my husband. I had to buy it and have it out do I can reread it often. Like a devotional, it'll set your mind thinking in a good direction for the rest of the day. Highly recommended

Are you at the top of your game—or still trying to get there? Take your cues from the short, powerful *9 Things Successful People Do Differently*, where the strategies and goals of the world's most successful people are on display—backed by research that shows exactly what has the biggest impact on performance. Here's a hint: accomplished people reach their goals because of what they do, not just who they are. Readers have called this "a gem of a book." Get ready to accomplish your goals at last.
