From Asian Development Bank : Papua New Guinea: Critical Development Constraints (Country Diagnostic Studies) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Papua New Guinea: Critical Development Constraints (Country Diagnostic Studies):

Papua New Guinea's economic growth has outpaced the majority of economies in Southeast Asia and the Pacific since 2007. Its development challenges, however, remain daunting, and it lags behind other countries in the region in terms

of per capita income and achievement of the Millennium Development Goals. This raises the question of how the country can make its economic growth high, sustained, inclusive, and broad-based to more effectively improve its population's welfare. This report identifies the critical constraints to these objectives and discusses policy options to help overcome such constraints.
