applied to all and also on a personal level. This book will change how you do business and who you do business with. The concepts and principles are also ones to make you a better person and partner/spouse/parent/friend. I have never read a book that I wanted to share more than this book. I am donating a copy to my library and also having one at my small business for clients to "check out" to read. Dale Partridge has so many good points in this book--my own copy is highlighted throughout. It's an easy read, keeps you engaged and he doesn't ramble on. I seriously hope that this book will be read by many and the concepts adopted because this is what can change business in our country and also personal lives as well. 6 of 6 people found the following review helpful. Buy This Book! By Todd I absolutely loved People Over Profit. It clearly highlights the damaging cycle of business growth, and provides effective ways to avoid falling into the efficiency trap. Dale's writing style is conversational and keeps you engaged with examples, statistics, and stories. The quote pages were a great addition, and are very thought-provoking. I have bought a few more copies to share with our leadership team, and will definitely apply the concepts in this book to how we run our business. 0 of 0 people found the following review helpful. Why did I wait so long to read this? By John Long This book is genuinely one of the best leadership resources I've read in awhile. Between leadership training, seminars, blogging and a weekly leadership podcast I'm constantly reading new resources to try and keep up with the demand. I had intentionally skipped this resource as I felt it was too popular. However, after reading this I felt foolish for leaving this amazing resource out of my library for so long. The thesis is pretty elementary but the profundity of the material should shift a paradigm with businesses everywhere. A must read.

Serial entrepreneur and business visionary Dale Partridge reveals seven core beliefs that create success by putting people first. Every day major headlines tell the story of a new and better American marketplace. Established corporations have begun reevaluating the quality of their products, the ethics of their supply chain, and how they can give back by donating a portion of their profit to meaningful causes. Meanwhile, millions of entrepreneurs who want a more responsible and compassionate marketplace have launched a new breed of socially focused business models. Sevenly founder Dale Partridge uncovers the seven core beliefs shared by consumers, starters, and leaders behind this transformation. These beliefs have enabled Dale to build a multimillion-dollar company that is revolutionizing the marketplace. He believes they are the secret to creating a sustainable world that values honesty over deception, transparency over secrecy, authenticity over hype, and ultimately, people over profit.
