Joseacute; Ignacio Garciaacute;a Hamilton : Por queacute; crecen los paiaacute;ses (Spanish Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Por queacute; crecen los paiaacute;ses (Spanish Edition):

1 of 1 people found the following review helpful. Insight to promote growthBy Esperanza ReynoldsA Mano Limpia is a show that airs in South Florida. Mr. Oscar Haza, the host of the show, opens the forum for candid discussion about world events, with a concentration of the review of events transpiring in Cuba. Mr. Jose Ignacio Garcia Hamilton was invited and we watched his interview, where he introduced this work as a humble attempt to decipher why some

countries grow and prosper while others do not. Mr. Garcia Hamilton came across as highly knowledgeable and provided an overview of world events that enchanted my father and I. We decided to acquire the book, and we find that it is excellent. Thanks to a neighbor from Argentina, Lina Navarini, we are rather interested in getting to know more of how the world is perceived by the people of the land of Carlos Gardel, Libertad Lamarque, Hugo Del Carril, gauchos, great "parrilladas" and tango. The author opens by sharing a biographical overview of his life. Born November 1st, 1943 in Argentina, Mr. Garcia Hamilton lived through interesting experiences during the government of Peron, who took over the government of Argentina a few months prior to Mr. Garcia Hamilton's birth, on June 4th, 1943. Mr. Garcia Hamilton's grandfather was an entrepreneur, initiating a newspaper, La Gaceta, something he later emulated by following suit and starting operations with El Pueblo de Tucuman. He provides insight on why nations such as the United States, the United Kingdom, and many others grow. The thinking processes required by a country to grow and prosper are explained in detail, but the key factor mentioned by the author is finding in these prosperous nations democratic forms of government that promote and defend individual rights while protecting individual accomplishments and the acquisition of property, whether intellectual or material. The book is in Spanish. Would highly recommend reading this excellent book. 0 of 0 people found the following review helpful. Five Stars By legalusa Excellent 1 of 1 people found the following review helpful. Muy Interesante By Libertario El libro de Joseacutecute; Ignacio Garciacutecute;a Hamilton, simplemente deduce que los paiaacutecute;ses que ahora son desarrollados lo lograron mediante:- El respeto a la propiedad privada.- El apego a las leyes.- La separacioacutecute;n y limites del poder.- El respeto a las instituciones. Nada fuera de lo comuacutecute;n (en los paiaacutecute;ses desarrollados, claro esta). Mientras tanto en el vecindario latinoamericano, en el lado regido por el castrochavismo, se oye auacutecute;n de reformas agrarias, nacionalizaciones, expropiaciones, redistribucioacutecute;n de la riqueza, "equidad" tributaria, economiacutecute;a "solidaria", lucha de clases, etc. Hoy muchas de las democracias latinoamericanas no son maacutecute;s que la tiraniacutecute;a de la mayoriacutecute;a donde manda la mitad maacutecute;s uno. Se supone que son repuacutecute;blicas pero no terminan siendo maacutecute;s que monarquiacutecute;as autoritarias.

Por queacutecute; crecen los paiaacutecute;ses presenta a un Garciacutecute;a Hamilton tan luacutecute;cido, poleacutecute;mico y contundente como en cada una de sus obras. Por queacutecute; crecen los paiaacutecute;ses pretende responder a una pregunta que en todo el mundo se formula cotidianamente en los aacutecute;mbitos academiacutecute;micos y de lagente comuacutecute;n: por queacutecute; algunas naciones "funcionan" y otras no. Describiendo con agilidad la evolucioacutecute;n histoacutecute;rica mediante la cual algunos pueblos han podido elaborar sociedades democraacutecute;ticas y proacutecute;speras, Joseacutecute; Ignacio Garciacutecute;a Hamilton nos ilustra sobre libertad y despotismo, ley e instituciones, propiedad privada y socialismo, y desarrolla ideas que son complementarias de las tratadas en El autoritarismohispanoamericano y la improductividad, el libro que lo consagrara como un autor argentino muy leiacutecute;do y respetado en el mundo hispanohablante y le valiera invitaciones de las Universidades de Cambridge (Inglaterra), Harvard, Georgetown, Wisconsin y varias otras de Estados Unidos. Con observaciones vaacutecute;lidas para todas las repuacutecute;blicas de la Ameacutecute;ricaEspañolacutecute;ola, con agudas comparaciones entre el mundo anglosajoacutecute;n, latino, alemaacutecute;n y ruso, con elevado nivel academiacutecute;mico pero lenguaje llano, Por queacutecute; crecen los paiaacutecute;ses presenta a un Garciacutecute;a Hamilton tan luacutecute;cido, poleacutecute;mico y contundente como en cada una de sus obras.
