**From Palgrave Macmillan : Preludes to the Icelandic Financial Crisis** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Preludes to the Icelandic Financial Crisis:

Iceland became one of the symbols of the global financial crisis. It provides an ideal test case for the perceptions of economists, in particular their ability to anticipate crises. The book contains papers and reports, written prior to the collapse of Iceland's financial system, about the economy. What did and didn't they see coming, and why?

About the Author FRIDRIK M. BALDURSSON Professor, School of Business, Reykjavik University, Iceland
