Richard Brealey : Principles of Corporate Finance (Mcgraw-Hill/Irwin Series in Finance, Insurance, and Real Estate) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Principles of Corporate Finance (Mcgraw-Hill/Irwin Series in Finance, Insurance, and Real Estate):

4 of 4 people found the following review helpful. This is one of the better finance texts I've come across By jacob headlee This is one of the better finance texts I've come across. It still is a finance text though, so I can't really say that it's in any way enjoyable. 3 of 4 people found the following review helpful. Finance Book By Shopbills Its a typical textbook nothing too exciting but it was useful in the course and easy to use. Layout was good, explanation was great. 1 of 2 people found the following review helpful. Information is good, but like many others By Chris Hibbard Information is good, but like many others, its beefed up with too much text that takes too much time to learn from. Overall, a lot of quality information, but this book should be condensed to a fraction of its current size.

The integrated solutions for Brealey's Principles of Corporate Finance have been specifically designed to help improve student performance meaning that students are prepared for class and can successfully solve problems and analyse the results. Resources within Connect Finance provide unlimited opportunities for students to practice solving financial problems and apply what they've learned. Brealey's world-leading content showing managers how to use financial theory to solve practical problems combined with a complete digital solution will help students achieve higher outcomes in the course. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need when they need it and how they need it so that your class time is more engaging and effective.

About the Author Stewart C. Myers is the Gordon Y Billard Professor of Finance at MIT's Sloan School of Management. He is past president of the American Finance Association and a research associate of the National Bureau of Economic Research. His research has focused on financing decisions, valuation methods, the cost of capital, and financial aspects of government regulation of business. Dr. Myers is a director of The Brattle Group, Inc., and is active as a financial consultant. He is also the author (with Professor Brealey) of this book's sister text, Principles of Corporate Finance. Richard A. Brealey is a Professor of Finance at the London Business School. He is the former president of the European Finance Association and a former director of the American Finance Association. He is a fellow of the British Academy and has served as a special adviser to the Governor of the Bank of England and as director of a number of financial institutions. Professor Brealey is also the author (with Professor Myers) of this book's sister text, Principles of Corporate Finance. Professor of Finance and Economics, Imperial College London, and Nippon Life Professor of Finance at the Wharton School of the University of Pennsylvania. He is past president of the American Finance Association, Western Finance Association, Society for Financial Studies, Financial Intermediation Research Society, and Financial Management Association. His research has focused on financial innovation, asset price bubbles, comparing financial systems, and financial crises. He is executive director of the Brevan Howard Centre for Financial Analysis at Imperial College Business School.
