Stephen W. Bigalow : Profitable Candlestick Trading: Pinpointing Market Opportunities to Maximize Profits (Wiley Trading) before purchasing it in order to gage whether or not it would be worth my time, and all praised Profitable Candlestick Trading: Pinpointing Market Opportunities to Maximize Profits (Wiley Trading):

3 of 3 people found the following review helpful. It's not a bad book but not a great one eitherBy A simple subjective reviewerIt's not a bad book but not a great one either. A fairly decent book. I liked Nison's more and i believe it is better to start with that one. If, after reading that one, you feel the need to read something more concerning this

subject, candlesticks, than you can choose this one. Other than a supplement i do not believe the book has a purpose.1 of 1 people found the following review helpful. Very good for candlesBy MarcGood intro to candlestick bar trading , the first chapters are good, they give you an overview of major signals , especially the second chapter it's really good . Later you also have a good couple of chapters with real examples... but then the author wrote about trend , pattern, elliot wave , etc and all of those topics received a mediocre treatment , it seems like the rest of the book is there just to fill the pages . That said, the candlestick part it's indeed very good .3 of 3 people found the following review helpful. Unravel the Mystery of CandlesticksBy cognibeneThis is, in essence, the same information that is being marketed by Trade Wins Publishing in a DVD course for \$500! The book is much cheaper, gives all the necessary information and clarifies the mystery of candlesticks. Well worth the money.

The updated edition to one of the most popular books on technical analysis Japanese candlestick charting and analysis is one of the most profitable yet underutilized ways to trade the market. Signals created by this unique method of technical analysis-represented in the form of graphic "candlestick" formations-identify the immediate direction and effects of investor sentiment through price movements, allowing traders to profit by spotting trend reversals before other investors. This updated version of Profitable Candlestick Trading: Pinpointing Market Opportunities to Maximize Profits makes learning the method fast and easy by introducing specific patterns, as well as the psychology behind them. The book Details the most valuable aspect of technical analysis-reversal patterns-as well as reversal signals, including the Doji, the Hammer, the Hanging Man, Engulfing Patterns, and Dark Cloud Cover Explains continuation patterns and explores how they can help with the decision-making process during various trading periods Reveals how to find trading situations that have the maximum potential for profitability, the highest probability of success, and the least amount of risk Learn how to quickly search, view, and profit with candlestick formations with Profitable Candlestick Trading.
